

Badgerbrook Primary School

Remote Learning Plan

The following is the plan for remote learning that must be supported by the detail in the 'Remote Learning Policy'

A class isolating or whole school closure

The teacher will communicate with the parents through the class email and send any work for the next day by 3pm.

The parents will be notified of any planned streamed sessions for the next day.

Each day may also include up to 4 short streamed sessions on Microsoft Teams.

These will be no more than 15 minutes each; a start-up session- setting the children off on a piece of work and then a short session as a plenary to end the lesson.

All lessons will be recorded so that children have access at another time if they need.

One pupil/or a small number of pupils isolating...

The teacher will communicate with the parents through the class email and send any work for the next day by 3pm.

Where appropriate more than one day's lessons/learning may be sent.

This will continue until the pupil is back in school.
